### Attention Dog handlers:

Our dogs have been through many different experiences before coming to us. CRCS uses positive reinforcement training methods only. Negative reinforcement methods, including choke collars, shock collars, pinch collars and tug and pull training methods are not part of our program and may not be used when working with our dogs. By initialing, you agree to adhere to this practice: \_\_\_\_\_ (*Initial Here*).

We appreciate your time and the dogs do too! Consistency is the key and we encourage our dog handling volunteers to commit to coming in a minimum of 3 months, if possible, regardless of how many hours you put in.
